## About The COVID-19 Vaccine

Vaccines are one of the safest and most important public health tools to protect against serious illness and prevent the spread of dangerous diseases, like COVID-19. Specifically, vaccines help our bodies develop immunity to viruses and prevent us from getting sick. Review the Maryland Department of Health's [frequently asked questions](#) about the COVID-19 vaccine.

## It's Easy to Get Your Vaccine

Each week, the Baltimore County Department of Health will post a weekly vaccine schedule at [www.baltimorecountymd.gov/vaccine](http://www.baltimorecountymd.gov/vaccine), with a number of appointment slots. Appointments are preferred at all County locations, but will not be required.

Residents who are medically homebound and unable to travel to a vaccine clinic can email the Department of Health at [COVIDVax@baltimorecountymd.gov](mailto:COVIDVax@baltimorecountymd.gov) or call the County's COVID hotline at 410-887-3816 to schedule a vaccine.

## Updated CDC Guidance on Face Coverings

Following the increase in hospitalizations due to the COVID-19 Delta variant, the CDC has updated its guidance. It now recommends "universal indoor masking for all students, teachers, staff, and visitors to K-12 schools, regardless of vaccination status." Additionally, fully vaccinated or not, people who live where coronavirus transmission is classified as substantial or high should wear masks when they are indoors in public places.

## Reopening Status

Baltimore County is currently aligned with the State of Maryland's reopening actions and face covering requirements. The COVID-19 state of emergency has been revised and will end in two phases:

### EMERGENCY MANDATES REISSUED AUGUST 24

On Tuesday, Baltimore County Executive Johnny Olszewski Jr. reinstated a local state of emergency amid a spike in coronavirus cases. The decision comes as the 7-day average of new cases has increased by almost 380% since the start of the month, according to the county.

The statewide mask order is no longer in effect for any settings, including schools, camps, and child care facilities.

# Free COVID-19 Testing

The Baltimore County Department of Health is operating the following clinics to test patients for COVID-19.

## Schedule an Appointment: [Click Here](#)

These appointments are critical—only schedule one per person. Do not schedule multiple appointments for the same person—this will prevent others from scheduling. The name and birth date that you provide on the form must match the name and birth date on your identification. If you prefer to be called by another name during testing, please inform the testing staff.

## Expanded Child Tax Credits

There have been important changes to the Child Tax Credit that will help many families receive part of their credit between July to December 2021, instead of having to wait until next tax season. The American Rescue Plan Act (ARPA) of 2021 expands the Child Tax Credit (CTC) for tax year 2021 only. This expanded tax credit is based on income and age of the child. Para estos primeros eventos, la prioridad es ayudar a quienes aún no han presentado una declaración de impuestos de 2019 o 2020 y tienen hijos dependientes. Estas familias son elegibles para pagos anticipados de impuestos del Crédito Tributario por Hijos que comenzará el 15 de julio. Más citas estarán disponibles para contribuyentes solteros más adelante en el verano.
