We are a Community School

Community schools are schools that develop and utilize partnerships that connect the school, students, families, and surrounding community to the resources needed to thrive.

As a Community School, we plan to highlight assets and leverage partnerships, providing students, families from birth to adulthood, and communities with essential services.

Through strategic partnerships, Deep Creek Magnet Middle Community School will work to provide access to high-quality academics, health services, mental health support, academic enrichment, out-of-school time programming, crisis support, adult education classes, leadership development, and more.
